is key to navigating
future disruptions.**

Sustainability Data Lifecycle Overview

1

Distinguish needs from wants

2

Identify reliable sources & types of data

3

Leverage what you already have

4

Start simple

5

Engage the right people

1

Where is our ESG data sourced from, and do we have confidence in its accuracy?

2

Are we using insights to drive action, or is it just a box-ticking exercise?

3

How are the ESG data insights influencing procurement decisions?
